LAB EXERCISE 1

BANK LOAN APPLICATION FORM

Basic Fields Use Case

1. Objective

To design and build a functional Bank Loan Application Form in Zoho Creator using all thirteen Basic Field types specified in Assignment–07, and to organize submitted applications in a report view for initial screening by bank loan officers.

2. Problem Statement

Paper-based loan enquiries can cause illegible handwriting, incomplete income details, and delays in routing applications. The proposed low-code application collects identity, contact, employment, income, loan requirement, liabilities, and credit-check consent through one structured online form.

3. Scope of the Use Case

- Application Name: Loan Application & Pre-Screening Management
- Form Name: Loan_Application_Form
- Primary Users: Prospective borrowers and bank loan officers
- Report View: Loan_Application_Report
- Objective: Enable loan officers to filter, pre-screen, and route applications for document verification.

4. Basic Fields Used and Their Mapping

The table maps all thirteen Basic Field types to the form field name, purpose, and sample value.

4. Basic Fields Used and Their Mapping

The table below maps every Basic Field from the Zoho Creator Form Builder palette to its role in the Bank Loan Application Form.

Basic Field	Form Field Name	Purpose	Sample Value
Name	Applicant_Name	Captures the full name of the applicant using First/Last name sub-fields	Suresh Raghavan
Email	Email_Address	Captures a validated email address for sending application status updates	suresh.raghavan@example.com
Address	Residential_Address	Captures the applicant's full residential address with city, state, and pincode	18, Lake View Road, Trichy, TN, 620001
Phone	Contact_Number	Captures a validated mobile number for the bank to call and verify details	+91 94430 22110
Single Line	PAN_Number	Captures a short free-text entry for the applicant's PAN or employer name	ABCDE1234F
Multi Line	Purpose_Of_Loan	Captures free-text description of the intended use of the loan amount	Funds required for home renovation and furniture purchase.
Number	Monthly_Income	Captures a numeric value with validation for the applicant's gross monthly income	55000
Date	Date_Of_Birth	Captures the applicant's date of birth using a date picker, used for age and eligibility checks	22-Jan-1990
Time	Preferred_Callback_Time	Captures the applicant's preferred time slot for a callback from the loan officer	5:00 PM
Drop Down	Loan_Type	Presents a single-select list of loan products offered by the bank	Home Loan
Radio	Employment_Type	Captures a single mandatory selection among mutually	Salaried

5. Form Layout (Section-wise)

Section A — Personal Details

- Applicant Name (First Name, Last Name)
- Date of Birth (Date field)
- PAN Number (Single Line field)

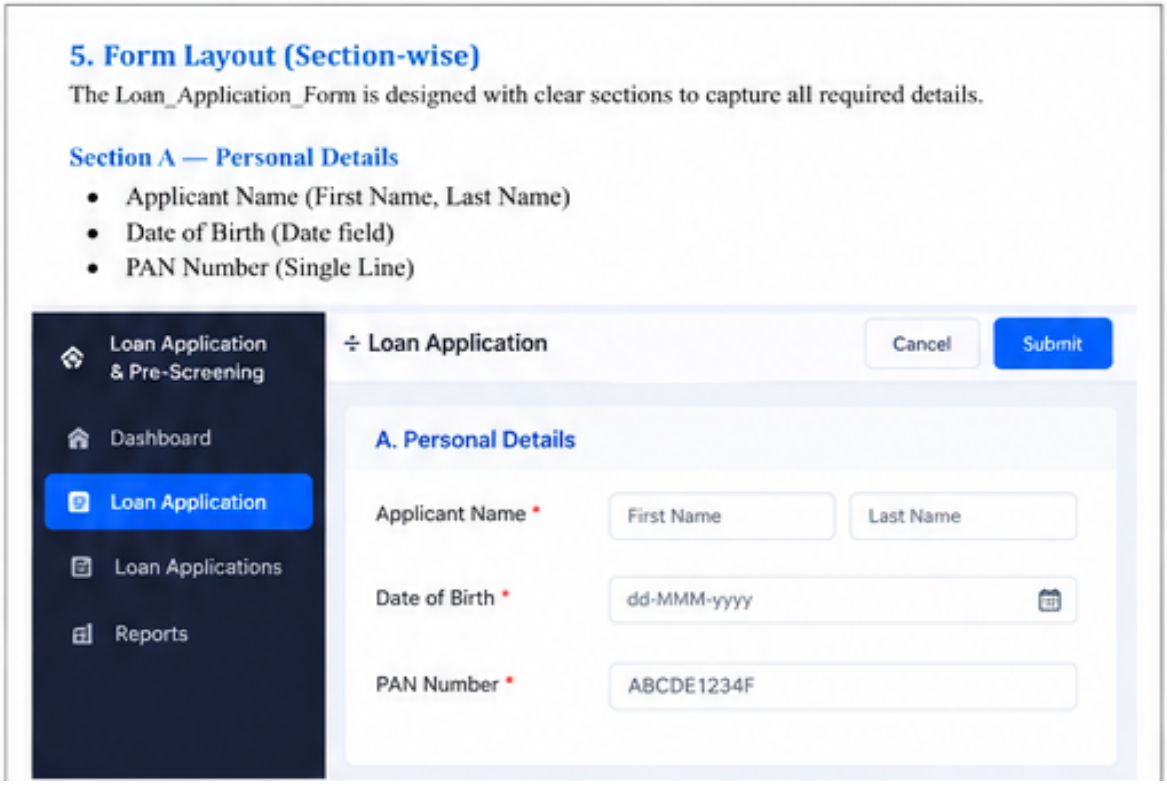

Figure 1: Personal Details section — illustrative Zoho Creator-style form.

Section B — Contact Details

- Email Address (Email field)
- Contact Number (Phone field)
- Residential Address (Address field)

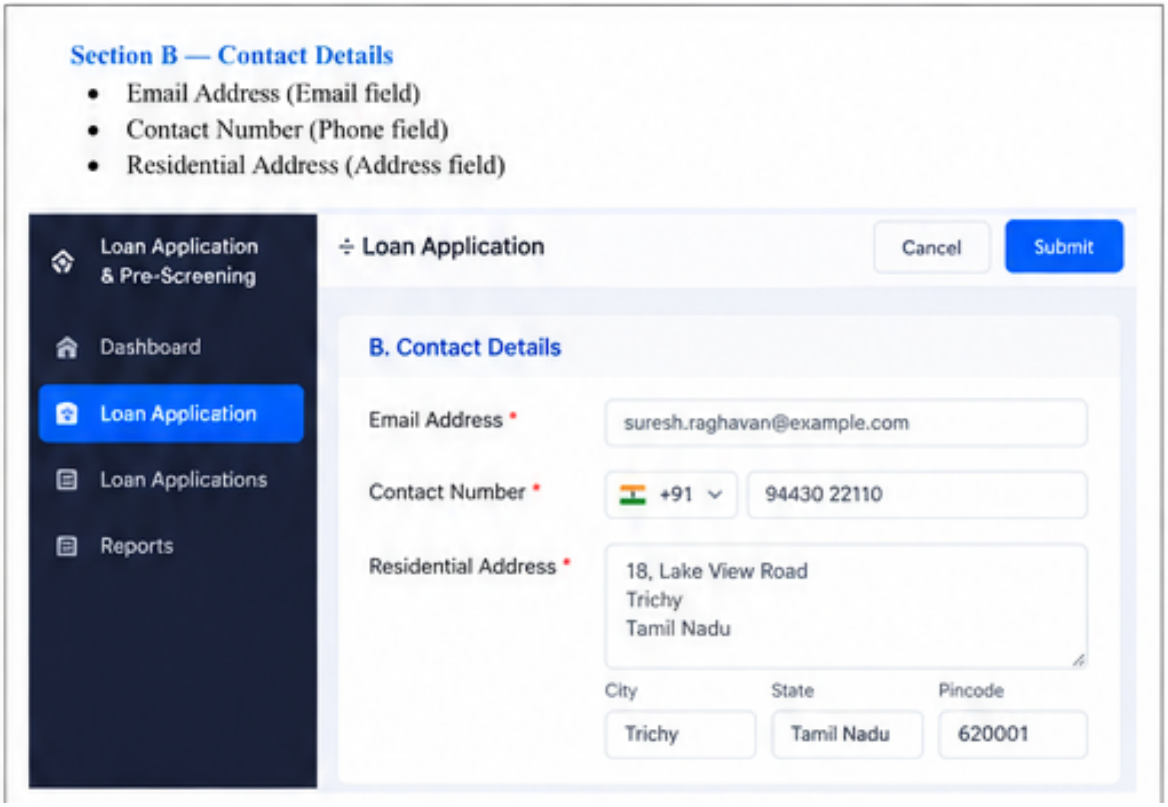

Figure 2: Contact Details section — illustrative Zoho Creator-style form.

Section C — Income & Employment Details

- Employment Type (Radio field)
- Monthly Income (Number field)
- Existing Liabilities (Multi Select field)

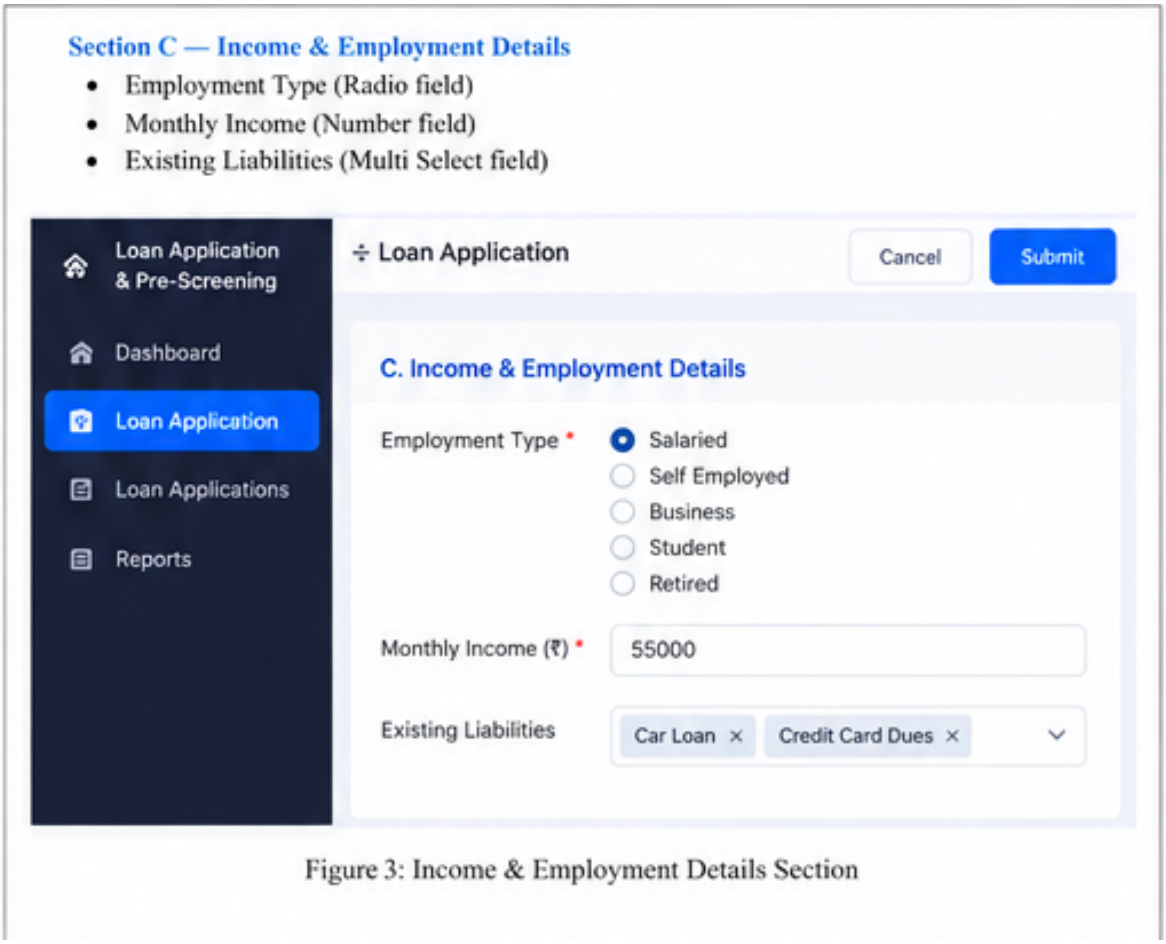

Figure 3: Income & Employment Details Section

Figure 3: Income & Employment Details section — illustrative Zoho Creator-style form.

Section D — Loan Details & Consent

- Loan Type (Drop Down field)
- Purpose of Loan (Multi Line field)
- Preferred Callback Time (Time field)
- Consent for Credit Check (Checkbox field)

6. Validation Rules

- Applicant Name, Contact Number, Date of Birth, Employment Type, Loan Type, Monthly Income, and Consent for Credit Check are mandatory.
- Email Address must use built-in email format validation.
- Contact Number should use the country-code format for Indian numbers.
- Monthly Income must be greater than zero.
- Date of Birth must ensure the applicant is at least 18 years old.
- Submission must be blocked unless credit-check consent is selected.

7. Workflow Summary

- Applicant opens the public form link or scans the branch QR code.
- Applicant enters personal, contact, employment, income, loan, and callback details.
- Zoho Creator validates mandatory fields, formats, and range restrictions.
- A new record appears in Loan_Application_Report.
- An acknowledgement email can be configured using Email_Address.
- A loan officer filters by Loan_Type and Monthly_Income and contacts the applicant for document verification.

8. Expected Learning Outcomes

- Understand the use of all thirteen Basic Field types in Zoho Creator.
- Organize a form into logical, applicant-friendly sections.
- Configure mandatory, format, and range validations.
- Understand how form data feeds into reports and preliminary screening.

9. Result

The report has been prepared from Assignment–07 and includes illustrative form visuals to show the intended layout. The Zoho Creator application itself must be built and tested, and actual screenshots of the Form Builder, live preview, and report containing at least three sample records must be added or substituted before final submission.

Note: The embedded visuals are generated illustrations, not screenshots captured from a live Zoho Creator account.
